

VENKUMAHANTHI JAYA TEJA

Product Designer (UI/UX) | SaaS, B2B Platforms, Interaction & Design Systems

jaitej790@gmail.com | 9392950368 | Hyderabad | jaidesigner.netlify.app | www.linkedin.com/in/jai-tej-17b717262/

Profile

Product & UX Designer with 2.3 years of experience designing user-centered, cloud-based SaaS and B2B enterprise platforms. Strong expertise in User-Centered Design (UCD), interaction design, scalable design systems, and accessibility (WCAG), delivering structured solutions across complex, multi-role workflows.

Experienced as an embedded member of Agile/Scrum teams, translating complex and ambiguous business requirements into scalable information architecture and intuitive interaction models. Skilled in usability testing, customer feedback analysis, and data-informed design decisions that drive clarity, efficiency, and long-term product growth.

Strong foundation in visual storytelling, typography systems, layout design, and motion-driven interfaces that enhance usability and engagement, with hands-on experience in AI-assisted design workflows and rapid prototyping for enterprise-level applications.

Proven ability to design and develop production-ready interfaces using AI, reducing developer effort by up to **33%**. Strong expertise in scalable design systems, interaction design, and workflow-driven enterprise UX.

Core Competencies

UX & Product Design:

User-Centered Design (UCD), User Research (Interviews, Surveys, Usability Testing), Information Architecture, User Flows & Journey Mapping, Wireframing & Interactive Prototyping, Responsive & Mobile-First Design, Inclusive & Accessible Design (WCAG)

Visual & Interface Design,

Visual Design Systems:

Typography Systems, Color Systems & Theming, Layout & Grid Systems, Visual Hierarchy, High-Fidelity UI Design, Iconography & Component Styling, Motion & Micro-Interactions, Design Consistency & Brand Alignment

Enterprise Systems & Interaction:

Multi-Role Dashboard Design, Role-Based Access Workflows, Workflow-Driven UX, Complex Data Visualization Interfaces, Design Systems & Component Libraries, Design Tokens, Scalable Pattern Development

Collaboration & Product Delivery

Agile & Scrum Methodology, Embedded Scrum Team Collaboration, Sprint Planning & Design Commitments, Cross-Functional Collaboration (PMs, Engineers, QA), Developer Handoff & Design Documentation

Tools & Technical Awareness

Figma, FigJam, Adobe XD, Framer, Photoshop, HTML, CSS, Basic JavaScript, AI-Assisted Prototyping & Generative Design Tools, AI & Development Acceleration, MCP's

Professional Experience

UI/UX Designer at G A Digital Solutions (onsite)

2025/02 – present
Hyderabad, India

- Owned end-to-end UI/UX design for cloud-based SaaS and B2B enterprise platforms, including multi-role dashboards and workflow-driven systems such as GA Grid (AI-based Digital Ops & Productivity System), FieldSync, HireSync, and MD BoardPrep, while serving as an embedded UX designer within a Scrum team—actively contributing to sprint planning, stand-ups, retrospectives, and design critiques to deliver scalable, sprint-aligned solutions.
- Created structured user flows, journey maps, wireframes, high-fidelity mockups, and interactive prototypes aligned with business objectives and operational workflows.
- Conducted user interviews, surveys, and usability testing to validate design hypotheses and iterate using data-informed insights.
- Improved workflow efficiency and task prioritization within GA Grid's AI-powered productivity dashboards, reducing user friction and enhancing operational visibility.
- Led UI/UX design for GradArena (AI Proctoring Platform) and designed and developed its product website using AI-assisted, code-driven front-end workflows.
- Built and scaled the Quantum Design System (QDS) across multiple enterprise products, improving UI consistency and reducing developer handoff effort by 30%.
- Ensured WCAG accessibility compliance and implemented inclusive design practices across enterprise-level dashboards and systems.
- Collaborated closely with Product Managers and Engineers to translate scalable design solutions into production-ready features.
- Designed and developed product websites for **HireSync** and **GradArena** using AI-assisted UI development workflows, reducing manual front-end effort
- Leveraged **Model Context Protocols (MCPs)** to streamline design-to-code translation, reducing developer workload by **33.33%**
- Built production-ready UI components using AI-driven code generation, accelerating delivery timelines
- Integrated AI into the design workflow for rapid prototyping, iteration, and real-time UI refinement
- Reduced dependency on engineering for initial UI builds by implementing structured AI-assisted development pipelines

UX/UI Designer Executive at techpixe (Onsite)

2024/07 – 2025/02
Hyderabad, India

- Led UI/UX design for AI-powered, cloud-based SaaS dashboards and enterprise platforms.
- Conducted structured user research including interviews, surveys, and usability testing to inform data-driven interaction decisions.
- Delivered sprint-based design solutions aligned with Scrum methodology and evolving product roadmaps.
- Designed responsive web and mobile-first experiences for **Smart AI HR, Asram Dashboard, Bharath Shop, and TWG Suite**.
- Improved product engagement by 20% through research-driven UX enhancements and iterative design improvements.
- Collaborated closely with developers to ensure scalable and consistent implementation across responsive systems.

UIUX Designer Intern at Edygrade (Hybrid)

2024/04 – 2024/07
Visakhapatnam, AP, India

- Improved Android app UX through **research-driven UI refinements**.
- Designed wireframes, prototypes, and visual UI in Figma.
- Increased usability ratings by **25%**.

UI/UX Designer

2023/10 – 2023/12
Noida, UP, India

Talentship Global Advisory Form

- Designed UI/UX for the **Krishitantrick platform** and company website.
- Created wireframes and prototypes to improve usability and accessibility.
- Supported client-facing design solutions in a consulting environment.

Case Studies

- **GA Grid** – AI-based Productivity & Operations Platform (SaaS)
- **HireSync** – B2B HRM & Recruitment Platform.
- **GradArena.ai**  – AI Proctoring Platform (Application UI/UX & Product Website)

Technical Skills

Product & UX Design: Product Design (UI/UX), SaaS Application Design, B2B Platform UX, Workflow-Driven UX, Information Architecture, User Flows, Usability Testing, Accessibility (WCAG), Design Systems, Developer Handoff, Responsive Design

Interaction, Motion & AI-Assisted UX: Interaction Design, Micro-interactions, Feedback States, Motion-Driven UI, Scroll-Based & Parallax Interactions, AI-Assisted UI Prototyping, Code-Driven UI Exploration

Tools & Front-End Awareness: Figma, FigJam, Framer, Adobe XD, Photoshop, HTML, CSS, JavaScript (Basic), Design Tokens, Component Libraries, Agile Collaboration

Key Achievements

- Awarded at **UpSlide Design Hackathon (2025)** for delivering high-impact UI/UX solutions under real-world constraints.
- Improved product engagement by **20%** through research-driven UX improvements.
- Built and maintained the **Quantum Design System (QDS)**, reducing developer handoff time by **30%**.
- Optimized design workflows at Techpixe, reducing delivery timelines by **15%**.
- Delivered **20+ projects** across SaaS, B2B, fintech, e-commerce, and ed-tech domains.
- Reduced developer effort by **33.33%** by implementing AI-assisted UI development workflows using MCPs
- Designed and developed AI-driven product websites (HireSync, GradArena) with minimal engineering dependency

Certificates

Certified in UX Research & Prototyping – Internshala  (2024)

Certified in Figma & Motion Design – Internshala (2024)  (2024)

Certified in UI/UX Design Foundations – TuteDude (2023) (2024)

Education

B. Tech (2020-2024)

Sir C R Reddy College Of Engineering, Eluru (Information Technology) - 7.5 CGPA

Languages

- English, Telugu (Native)
